Dear Campus Customers,

Central Plant will be conducting a regularly scheduled high temperature hot water shutdown the weekend of Friday, June 24, 2022 through Sunday, June 26, 2022.

We will be shutting down after 5:00 p.m. on June 24, 2022. Normal service will be restored no later than Sunday, June 26, 2022 at 11:00 p.m.

The purpose of this shutdown is to conduct regularly scheduled maintenance of equipment on the high temperature hot water system and the cogeneration plant. The systems that will be affected during the shutdown will include: building heat, industrial and domestic hot water, and steam generation for cage washers and autoclaves.

The chilled water supply for the buildings and process cooling will not be affected during this shutdown.

This maintenance will help ensure that we provide reliable service to the campus community.

Buildings NOT affected by the Central Plant HTHW Shutdowns:
AIRB
Beckman Laser
Berkeley Place / Law School
EH&S
Gavin Eye Institute
Gillespie
Gottschalk
Gross Hall
Hewitt
Showa Denko (Hitachi)
Housing
Irvine Hall
Med. Ed / Berk Alumni
Med Surge I
Med Surge II
Mesa Arts, Commons
Multipurpose Academic & Admin. Bldg.
Multipurpose Science & Tech. Bldg.
North Campus
Rockwell Engineering
Sprague Hall

Please call Tony Garrit at 824-5140 or Michael Bonomo at 824-8715 for questions regarding this regularly scheduled shutdown.
