Dear Campus Customers:

Central Plant will be conducting a regularly scheduled high temperature hot water shutdown the weekend of Friday, September 20, 2019 through Sunday, September 22, 2019.

We will be shutting down after 5:00 p.m. on Friday, September 20, 2019. Normal service will be restored no later than Sunday, September 22, 2019 at 11:00 p.m.

The purpose of this shutdown is to conduct regularly scheduled maintenance of equipment on the high temperature hot water system and the cogeneration plant. The systems that will be affected during the shutdown will include: building heat, industrial & domestic hot water, and steam generation for cage washers and autoclaves.

The chilled water supply for the buildings and process cooling will not be affected during this shutdown.

This maintenance will help ensure that we provide reliable service to the campus community.

Buildings NOT affected by the Central Plant HTHW Shutdown:
AIRB
Beckman Laser
Berkeley Place / Law School
EH&S
Gavin Eye Institute
Gillespie (Heating will be affected by this shutdown)
Gottschalk
Gross Hall
Hewitt
Hitachi
Housing
